

Japan Packaging and Logistics Consultants Society (JPLCS)

●Japan Packaging and Logistics Consultants Society (JPLCS) is an organization consisting of 80 consultants. We are authorized “Professional Engineers” based on the Professional Engineer Act and make packaging and logistics our specialty.

●Society members, -“Professional Engineers” – belong mainly to Industrial Engineering and work as a registered group of The Institution of Professional Engineers, Japan (IPEJ).

We conduct advanced consulting activities in alliance with Japan Packaging Institute (JPI) and Japan Institute of Logistics Systems (JILS)

●In this increasingly complicated society, various demands, such as environmental demands, have come to be imposed on the packaging and logistics field and affect cost and function. Our experience and technology help you to formulate and solve such problems. Highly efficient structures and methods are considered together with our clients.

What is a “Professional Engineer”?

A “Professional Engineer” is a technical consultant who possesses highly certified applied skills and is authorized by the Japanese Government.

Introduction of our activities

1. External activities

- ① Introducing consultants to packaging and logistics, and collaborative research.
- ② Technical advice and suggestions for improvements and research on commission related to packaging and logistics.
- ③ Technological exchange with related associations and technical co-operation on domestic and international issues.
- ④ Attendance or co-operative attendance at exhibitions held by related associations
- ⑤ Education and guidance for engineers who are interested in becoming “Professional Engineers”.

2. Research activities

- ① Research meetings are held every other month.
- ② Domestic and overseas study trips are held at least twice a year.
- ③ Research bulletins are published once a year.

3. Public relations

- ① The activities of this society are reported on a yearly basis to The Institute of Professional Engineers, Japan(IPEJ), Japan Packaging Institute(JPI), and Japan Institute of Logistics Systems(JILS).
- ② Proposals are made for the improvement of packaging and logistics technology.
- ③ Publication of the membership list on website.
